Governments elected nobody votes
Politically correct isn't that a joke?
We censor music then give children guns
On CNN
Still fightin' to death over Jerusalem
Four letter disease still makes us run
Can't comprehend that you can die from Love

Can I start things over
And change your mind
Can I sing a melody
Press rewind
Can I move your feet make your heart skip a beat
Can a simple tune flow through you?

When the music feels like this
When you lose control you gotta go with it
Ten feet high
Flyin' above the sky
Your problems don't exist
When music feels like this

No money left in Africa
Starvin' to death
In Bosnia we close our eyes and hide a nation cries
And In the West
TV Possessed and weight obsessed
The media dissects, infects
We think real life is reality TV

Can I have your attention
And Press rewind
When the DJ spins
Will it change your mind?
Can I move your feet
Make your heart skip a beat
Can a piece of me Flow through you?
When the music feels like this
When you lose control you gotta go with it
Ten feet high
Flying above the sky
Your problems don't exist

When music feels like this

When the Music feels like this
DJ take control
And Grab a hold of me
Spin that wheel
Tell me how to feel
I like the shape I'm in
When music feels like this

Bringin' the beat back
Stompin' the floor
Dancin' like a booty never bounced before

Poppin' to the back beat
Up on the one
Smack Jack Freakin' now you're overcome

When the music feels like this
When you lose control you gotta go with it
Ten feet high
Flying above the sky
Your problems don't exist
When music feels like this

When the Music feels like this
DJ take control
And Grab a hold of me
Spin that wheel
Tell me how to feel
I like the shape I'm in
When music feels like this

Let the music in
Let the DJ spin
Let the music in
Coz the music should feel like this
Feel the music
