Desperationâ€¦

Desperationâ€¦

What will you do?
When it comes for you?
There go the generations
There we all go

More pills for you
To try to hide from the view
There go the generations
There we all go

Here come the drifters
(This is invasion)
Into the rich neighborhoods now
Overpopulations disaster
Has come for it's master
(That only protect the few)
And now the unprotected is you
(This is invasion of annihilation)

There go the generations
Annihilationâ€¦
