We need an ever changing scene
Boredom comes from the regime
Comfort left you up for sale
Just to find out it wasn't there

The only solution
That speaks for everyone
Stand up for the conclusion
Revolution

They'll never see us but we'll be close by
Mental renegade planet of spies
Steal their money then burn it and make love all right!
The underground is coming out tonight

Where has the genius been
Sick of seein' the fuckin' same damn thing
The upper class wears the golden ring
While the mascara runs down the street

The only solution
That speaks for everyone
Stand up for the conclusion
Revolution

They'll never see us but we'll be close by
Mental renegade planet of spies
Steal their money and burn it then make love all right!
The underground is coming out tonight

RIGHT NOW!!!

The only solution
That speaks for everyone
Stand up for the conclusion
Revolution
