- [Intro:]

Hey!

(Soho Singing)

- [V.Verse#1:]

Ha, yeah!

Runnin' from the city lights - to find a life!

Nothing makes sense to me!

Nothing seems to be right! ?

Searchin'! - I'm hella desperate!

Hurtin'! - Nothing comes next to it...

I'm fuckin' scared of the fact of one government!

Relentlessly accepting the depression...

This world is now based on machines!

It's like the Matrix - where man will become robotic!

We already implanted with lies!

The city lights are attracting - but badbye, cause I'm
runnin'!

Against the goddamn darkness!

How the fuck can you say we ain't slaves! ?

Livin' in city blocks in brick cages!

We've been livin' like this for ages - against the political
mages...

Using their powers in wrong ways!

I feel I've been raided, cause life on this planet slowly
fades away!

- [Bridge:]

(There's something wrong with the world.)

Yeah...

(We don't know what it is...)

The City Lights...

(But it's there.)

Searchin'...

(Like a splinter in your mind.)

(Drivin' you mad!)

Hurtin'...

- [Soho.Chorus:]

Takin' my last breath - recollecting good old days.
Back then we used to smile.
Now all we do is beg and pray!
Woman, man and child - all in same crisis.
All in one!
We're all in one crisis...

- [V.Verse#2.The.Pursuit:]

(Cop 1): 367, He's down the alleyway.
(Cop 2): We're on pursuit!

Running as fast as I can!
The governments controlling - RFID chips identifying.
Mayhem!
No more metaphores now - it's straight up,
Corrupt cops controlled to control blocks!
Nowhere to run!
The sound of the vicious hound as soon as someone
does something that's not allowed!
Look at the moon behind the clouds.
Hear the werewolfs frown in the distance of a growl.
Watch the tripods metal stomp the ground!
It screams a frequency of a million synth sounds!
My feet sprint but yet I am filled with guilt.
I'm lied to everytime by the medias windmill!
I'm alone in this struggle...
My mind's still billed...

- [Break]

- [V.Verse#2.Cognition:]

I refuse to give up cause the facts are fucked up!
No matter what - Integrity stays stuck!
It comes down to this!
I know who I am!
I know what I want in this world so goddamn!
Always to remember you're just material!
You fuckin' inferior - I'm superior!

- [Speak.Bridge:]

Throughout human history we have been dependent on
machines to survive.
Fate, it seems, is not without a sense of irony.

Human beings are a disease, a cancer of this planet -
you are a plague. And we... are the cure!

Billions of people, just living out their lives... Oblivious.

I can't go back, can I?

No. But if you could, would you really want to?

- [Soho.Chorus:]

Takin' my last breath - recollecting good old days.

Back then we used to smile.

Now all we do is beg and pray!

Woman, man and child - all in same crisis.

All in one!

We're all in one crisis...

Takin' my last breath - recollecting good old days.

Back then we used to smile.

Now all we do is beg and pray!

Woman, man and child - we're all in the same.

All in one!

We're all in one crisis.

- [Speak.Outro:]

You had your time. The future is our world.

The future is our time.
