I thought we had a friendship  
but you wanted more  
did laugh when you said what are hearts for  
we were always together, I just could not see  
you were making plans boy, gonna make a move on  
me  
I tried not to notice these feelings getting stronger  
hust cant deny this can't hide it any , can't hide it any  
longer

I'm falling for you  
I just keep losing sleep  
falling for you  
I'm getting in too deep  
falling for you baby and I can't believe its true  
I'm falling , falling , falling for you

my mama always told me  
boys are all the same  
they cant stop playing their silly little games  
and I believe her see my mama yeah, my mama's  
always right  
but when he smiles at me oh, I can't put up a fight  
both my hands are shaking  
I wanna hold you near me  
my heart is aching  
and only you can free me

I'm falling for you  
I just keep losing sleep  
falling for you  
I'm getting in too deep  
falling for you baby and I can't believe its true  
I'm falling, falling, falling for you

you said...  
here I am to tell you  
how I really feel  
gotta ask the question  
gotta know if this is real  
tell me is it's real  
I'm falling for you

falling for you  
don't you know  
don't you know that its true  
I can't help falling for  
falling for you baby  
I can't help falling for  
falling for you baby  
can't you see that its me

and I'm falling for you I just keep losing sleep  
falling for you  
I'm getting in too deep  
falling for you baby and I can't believe its true  
I'm falling , falling , falling for you  
can't you see that its me

I'm falling for you  
I just keep losing sleep  
falling for you  
I'm getting in too deep  
falling for you baby and I can't believe its true  
I'm falling , falling , falling for you
