Night of summer  
Star Shaped Sky  
The moon reflect  
Their mystic and charms raid  
That's passing through the trees  
Of my lovely kingdom  
Enchanted by the old wizard  
They are unfiltered  
Inside my soul and my actions  
I'm part of they power  
The fortune, now is mine  
Enchanted by the full moon raids  
Dancing around the fire  
With the wizards  
And the key of the obscurity  
Join my eternal enchantment  
To worship the misteries  
Of my kingdom.
