

Darren Styles "Breathe Again"

Visit "[Breathe Again](#)" on MotoLyrics.com

I, I can feel it coming tonight
It's burning right there in my mind
Like I'm gonna live forever
And you, you're the one thing I desire
And You're' eyes pull me under the wire
You can make me better

You know I could breathe again
we could breathe again
you know we can make it if we hold on till the end
now I could breathe again
We could breathe again
You know we can make it if we hold on till the end

Time, time will never tear us a part
Cause I can feel you deep in my heart
I can never disconnect it
And you, you're the one drug that I need
And without you I'll never be free
Cause you can make it better

You know I could breathe again
we could breathe again
you know we can make it if we hold on till the end
now I could breathe again
We could breathe again
You know we can make it if we hold on till the end
