My heart beats, my heart beats, my heart beats, my  
heart beats  
My heart beats, my heart beats, my heart beats, my  
heart beats

Alone tonight  
Stars shining bright  
Can I dream that you're beside me?  
I wait for you  
What can I do?  
Heavens know if only you love me

And my heart beats just like a drum  
And my heart beats, it goes boom, boom, boom  
And I'm needing you, won't let me go  
You started this desire  
X2  
And my heart beats...

And in the heat  
My body's weak  
In my world your love surrounds me  
I wonder why  
We have begun  
Won't you put your arms around me?  
Won't you put your arms around me?

And my heart beats just like a drum  
And my heart beats, it goes boom, boom, boom  
And I'm needing you, won't let me go  
You started this desire  
X2
