The first thing I did when that plane finally landed was
kiss the ground
The next thing I did was to go find my friends down at
the old hangout
Drank some beer and talked a lot about old times
But when the booze finally hit Billy Joe Grimes
He said I don't know what it is, but you seem different
to me

I said I just came back from a place where they hated
me
And everything I stand for
A land where our brothers are dying for others who
don't even care anymore
If I'm not exactly the same good old boy that you ran
around with before
I just came back from a war

The very next morning I took a walk through the
neighborhood
I thought it's been so long since I've been in a place
where everything is good
People laughing and children were playing
And as I watched em I found myself praying
Lord keep em safe here at home in the land of the free

'cause I just came back from a place where they hated
me
And everything I stand for
A land where our brothers are dying for others who
don't even care anymore
If I'm not same little freckled face boy
That grew up in that house next door
I just came back from a war

I hope you cherish this sweet way of life
And I hope you know that it comes with a price

I just came back from a place where they hated me
And everything I stand for
A land where our brothers are dying for others who

don't even care anymore
Chances are I never will be the same
I really don't know anymore
I just came back from a war

I just came back from a war

[background]
You don't know me (repeated)

I just came back from a war
