Is it there like a flame against the dark
Is it there like a red inside your heart
Do you see through the stars in the sky
Just promise me and I will take you high
Open your eyes
See the horizon in your side, harder to breathe
Now that we've fallen into the sea
Tell me the secrets that are always in your mind
It's just the same for me, It's just the same for me,
yeah yeah
Come on..... Come on.....
Ohh yeah..... Oh yeah.... Ohhhhhh
Hard to breathe
Fallen..... Fallen..... Fallen..... Fallen
Open your eyes
See the horizon in your side, harder to breathe
Now that we've fallen into the sea
Tell me the secrets that are always in your mind
It's just the same for me, It's just the same for me
Do you feel all the colours on your skin
Is it real like a rip along the bend
Do you dream that tonight should never die
Just promise me and I will let you fly

Open your eyes
Harder to breathe
Open your eyes
Harder to breathe
Open your eyes
Open your eyes
See the horizon in your side, harder to breathe, harder
to breathe
Now that we've fallen into the sea
Tell me the secrets that are always in your mind
It's just the same for me, It's just the same for me
Open your eyes
Harder to breathe
Open your eyes
