

Darren Styles "Shining Star"

Visit "[Shining Star](#)" on MotoLyrics.com

I heard somebody say,
"It's better to burn out than fade away."
I smile at the thought of you.
I know that's just what you would do.

A supernova in the night.
My diamond star, you shine so bright.
I never wonder where you are.
Your brilliant, like a shining star. (x2)

We only get one chance to see,
exactly who we're meant to be.
I wanna touch you everyday,
you are the one that lights my way.

A supernova in the night.
My diamond star, you shine so bright.
I never wonder where you are.
Your brilliant, like a shining star.

Shining star. (x15)

A supernova in the night. (in the night, oh)
My diamond star, you shine so bright. (shine so bright)
I never wonder where you are. (you)
Your brilliant, like a shining star. (shining star)
