We are the cool kids
We wear the cool clothes
We kick your face in
If you mess with us
We don't answer why
'Cause everybody knows
We are the cool kids

We are the cool kids
We don't have to try
We keep the fat chicks
And the fags in line
We just say their names
And we watch them die

And if you think you can hate all of us,
We don't think you will stray very far
Don't you know you love us more than we do?

We are the cool kids, we can smell a lie
You think we like it when we look alike
But we know you by the whites of your eyes

And if you think you can hate all of us,
We don't think you will stray very far
Don't you know you need us more than
We need you?

And I'll smoke what you smoke
And I'll choke if you choke
And we'll joke but we hope we fry away

And if you think you'll erase all of this,
We don't think you will make yourself
Can't you see no one can be Brandon Boyd?
