It's just too kind  
How you rip through my mind  
Cut past my moonlight  
With those eagle eyes

I am a baby boy  
I am a swan dive  
I just can't survive  
Unless you're by my side

So I will let you  
Beat me  
I will play your fool  
I will say you  
Teach me  
Be your cockatoo

Tired of screwing with the phone  
The TV's monotone  
My books are just on loan  
I want some stories of my own

Be my Story of O  
Come on smash my thumb toe  
Spray my lymph across your wall  
Just don't leave me alone

So I will let you  
Beat me  
I will play your fool  
I will say you  
Teach me  
Be your cockatoo
