Driving on a newfound road
I'm riding down my favorite road
Hand's out surfing on the wind
I'm lost in all the Åælster green

Heading out for Malibu
To slide between the mercury
I'm no longer scared of seaweed
I've got nothing left to be

I'm Kite High!
Nothing's gonna stand in my way ever
I don't need one reason why

Everyone is holy
Everyone is holy
And I'm just waiting here to see
How far faith can throw me

'Cause they were screaming for me
Lost inside an angry sea
So sure those were dark shark fins
But I just saw the dolphins

I'm Kite High!
Nothing's gonna stand in my way ever
And I don't need one reason why

I'm Kite High!
Nothing's gonna stand in my way ever
I don't have one reason why
