I was flying down the highway weaving in and out of
traffic
I was racing time
An old man pulled out in front of me and I went crazy
as can be
I lost my mind
I blew my horn till I got close enough to see
And what was on his car-tag sure convicted me

POW 369

I should salute you from this heart of mine
And thank you for placing your life on the line for me,
I'm free
I pray that the rest of your journey is a peaceful one
And may you take your own sweet time
Mr. POW 369

The things we take for granted in this life we lead are
tragic
We should be ashamed
He left his home and family and cast his fate across
the sea
Would we do the same
Well I sure bet he's got some stories he could tell
Ain't that many ever made it back from hell

POW 369

I should salute you from this heart of mine
Thank you for laying your life on the line for me, I'm
free
I pray that the rest of your journey is a peaceful one
And may you take your own sweet time
Mr. POW 369
Let me thank you one more time
Mr. POW 369
