Songwriters: Jones, Brett; Worley, Darryl

Hey, I just called to let you know I'm buckled in my seat
On a jet airliner headed back to Tennessee
We've been together for years, I'm gone for one day
Girl, I miss you like I did after our first date

And this crazy love
Is strong as it ever was

Baby, you still got it
I still want it, uh-huh
Oh, yeah
Just in case you didn't know it
You got it goin' on
I'm all yours, you're all mine
Girl, you turn me on after all this time
You still got it
And I still want it

So, baby, fire up some candles and turn the lights
down low
Yeah
And dial up somethin' sexy on the radio
I've got a bottle of wine, I'm almost home
Put one of those silky little nothin's on

We can stay up late
We got somethin' to celebrate

Baby, you still got it
I still want it, uh-huh
Oh, yeah
Just in case you didn't know it
You got it goin' on
Oh, yeah
I'm all yours, you're all mine
Girl, you turn me on after all this time
Baby, you still got it
And I still want it

Mm-hm-mm

And, girl, you got me hangin' on to every kiss
That's the way it was, and that's the way it is

Whoa, whoa, now

Baby, you still got it
I still want it, uh-huh
Oh, yeah
Just in case you didn't know it
You got it goin' on
Oh, yeah
I'm all yours, you're all mine
Girl, you turn me on after all this time
You still got it
I still want it

Oh, whoa, yeah
You still got it
I want it, baby
You still got it, girl
