"A Love Affair With Life"

You play a love affair with life
You stay and dance with every night
The moments from dawn to dusk
You chase I am lost now
Where do I stand in the race?

You play to empty eyes in crowded bars
I can't believe we've come this far
Yet got nowhere.
What is there left for me in this?
Every time you play is your first kiss.

I'm not a pass-time
I'm not your pass-time
Don't play around with me
You can't play me
I'm not a melody

Don't play 'round with me&

Don't play 'round with me
'Cause I'm not a pass-time
I'm not your pass-time
Don't play around with me
You can't play me
I'm not a melody
I'm not a melody
I'm not a melody

You can't play me
I'm not a melody
