I know that lately
Things haven't been so good
I've always said
If I could ever help you, I would

Ooh hoo, ooh hoo
I love you for a thousand years
Ooh hoo, ooh hoo
I'm here to wipe away the tears

I will be your friend
Until the end of time
I will be your friend
I'm here to make you smile

When your falling apart
I pick up each piece and build a wall around your
dream
The punches to you heart
Melt away when you never thought they'd heal

'So trust in me'
These are the words I tattoo on you
If Hercules can't pick you up now
Then I really am true

I will be your friend
Until the end of time
I will be your friend
I'm here to make you smile

Ooh hoo, ooh hoo
I love you for a thousand years
Ooh hoo, ooh hoo
I'm here to wipe away the tears

You've got so much to give
I'll tell you just when you need to know
Get out and live
Pick you up when you're feeling low

So here's my hand

Trust in me I really am true
You've got to understand
There's nothing I wouldn't do

I will be your friend
Until the end of time
I will be your friend
I'm here to make you smile

I will be your friend
Until the end of time
I will be your friend
I'm here to make you smile

You've got so much to give
Get out and live

I will be your friend
Until the end of time
I will be your friend
I'm here to make you smile

The punches to you heart
Come on and take my hand
When you're falling apart
Oh oh, you've got to understand
