"Grudge of Sorrow"

I'm sick in nightmare of the name to call reality.
Will you have a pain in the depths of a chest?
Reveal a wound hiding.
Spit out a lie hiding.
A grudge as it boils will repeat self-torture.
I want to escape from reality I approach, and to come.
Because nobody can save my heart anyway.

The sigh faded away for wind.

Tsukuriageta kireigoto ka?
Tsutawaranai kietehoshii dosuguroi ame ga furu
The sigh faded away for wind.
Ibasho ga naku mogaitemasu fukai kizu yo shitataru
chi yo sonzai no imi
ha doko na no ka?

I cut darkness and live.
Itsuwari to minikusa no naka de daremo shinjirarenai
kara
Azawarau boukanshatachi yo nani mo dekizu orokasa
ni nageku koto darou

Where is my place to stay?
What do you expect for me?

Kanashimi no naka dareka no koe o machiwabitemasu
shinitakumonai
ikitakumonai fuantei na genzai
