I kill myself  
I pour my rotten blood on you.  
Cry for you.

I hate you making a fool of me.  
I want to murder you deceiving me.  
Let a restrained tangle loose.  
I don't want to hear the excuse.  
I already got tired of hearing the falsehood.  
I'm drowned, and nothing looks sorrowful.  
My heartless instinct makes darkness.  
What is the thing which can save me  
who was about to be broken?

Betrayal (fuck off)

What is the thing which can save me

Betrayal (fuck off)  
Can you hear my pains and cries?  
The reality gives me fear cruelly.

I pray with all my malice.  
Disturb... disturb...
