[music/lyrics by R. Cortez]

Catalepsy, paralyzed
Suspension of the brain
Execration, desperation
Have I gone insane
Pathological, conscienceness
Nearing the last breath
Obscurity possess' my body
And all I see is death

Awaken inside a cold casket
And all I can do is scream
The torment is all thats left
And I pray its all a dream
A desperate fear of death
this muddy world I plunder
"Why" asking in my head
In dying six feet under
