[music by R.B.Cortez lyrics by E. Chavez]

Condemned in misery  
For my state of being  
My life has just begun  
In a world far beyond

I've left this mortal world  
Of sickness and disease  
Visions race my eyes  
From the pain inside

Banished from the living  
Some mock at my demise  
Mortals never learn  
Violence fools their minds

There's nothing left for me  
My bodies long decayed  
I've lost my mental health  
For my life I no longer fight!

Now at the world I'm laughing  
For the life they're living  
Laughter created by their dismay  
As I watch them rot away

Now at the world I'm laughing  
For the life they're living  
Now I'm on the other side  
Never go back to reality

Now as the end draws near  
I know this hell is a plot for me  
Insanity take my mind and soul  
Into an unknown world I'll go
