The ocean has turned black again
And I'm still missing you my darling
Alone but hopeful I'm still here
Waiting for a sign you should be giving

Isn't it love
That we are feeling ?
Isn't it love

As i look into the rain
It seems as though I can see you face
In a sea of tears
Is the only place i can be with you ?

Yes it is love
That we are feeling
Yes it is love
That i feel
Yes it is love
That we are feeling
Yes it is love
That I fell
