Once again i feel
The hole growing inside
I'm still running
Running through the grass
Once again i dream
I can touch the sky
I keep on running
I keep on running

To the perfect world
Under beautiful skies
In a perfect world
Never will we die

Some days
you just wanna pass away
Some days
You just feel like it's a perfect day
Some days
You just wanna pass away
Some days
You just feel like in your beautiful day

In the perfect world
Under beautiful skies
In a perfect world
Never will we die

Some days
you just wanna pass away
Some days
You just feel like it's a perfect day
Some days
You just wanna pass away
Some days
You just feel like in your beautiful days

In a perfect world
