Black satin living room  
We're in the black satin living room  
And we keep coming back for reasons  
Like we always used to do  
We keep coming back for reasons

I put my head in your lap and you say we're friends  
And that's that  
I put my head in your lap and you say that's that  
Cause that's what friends are for, I see  
We get them to give them our love now  
Now see  
We get them to give them our love now

I put my head in your lap and you say we're friends  
And I say, is that a fact  
I put my head in your lap  
Cause that's what friends are for, I see  
We get them to give them our love and then some  
things  
We get them to give them our love and then so  
We end a black satin living room  
We end a black satin living room  
We keep coming back for more.
