Just Eat Air

Saturation
Of exceptions
Gets suspicious
Smoking fags
Can't be bad
Unless they're trash

How deep could this go
If you say you know
With a view so callow
Yes my friend
There's no end
It just happened

How to know the right time to leave
When to know the right time to leave
When to know
To know
No

Can't be sad
Won't be bad
This just happened
Yes my friend
There's no end
This just happened
Loyalties waning
It all keeps changing
This just happens to be the truth

How to know
When to go
