You can sit there on your own
You can walk through life alone
But there's other ways to spend your days
It's not the things that you don't say
It's what you keep away
Can you hear me, what I'm trying to say

What if I could give you something bigger than this
What if I could show you something else, in life
You're an angel in disguise
It's up to you to rise.

What if I could set the rules for a single day
What if I could take you to a better place
Would you still hesitate and not make a change
It's up to you, up to you, up to you now
What if I could be you and help you thru

What if I could give you something bigger than this
(Yea) What if I could show you something else, in life
You're an angel in disguise
It's up to you to rise

Hey, it's up to you
Tell us your story
What are you running from
soon you will know
You will know that you belong to
something bigger!
You will know that there is something else, in life for you
And you'll be saved in an instant
What if I could give you something bigger than this
What if I could show you something else, in life
You're an angel in disguise
