Tell me, don't lie to me, even if it kills me.
I know you're cheating on me boy
Believe me, you'll see, I'm gonna make you tell me.
Seeing you cry I will enjoy.

You and I we got it wrong
You don't belong
This is your song

You let me down, down, and now I'm feeling foolish, I'm soulless
This time you're out, out, 'cause no one leaves me clueless, I'm soulless

Take your things and leave, I don't want to see you
Don't need to listen to your lies
You screwed up I believe, nothing more you can do
You can see it in my eyes

You and I we got it wrong
You don't belong
This is your song

You let me down, down and now I'm feeling foolish, you're soulless
This time you're out, out, 'cause no one leaves me clueless, I'm soulless
