I'm the kind of girl that you wanna marry  
Live on on a farm with a bunch of kids  
Go to bed at night and we'll get up early  
Kind of a way our grandparents did

Give me little groom and I'll sweep your bar now  
Give me little soap and I'll wash your jeans  
Give me half of chance and I'll knock your sons up  
Sounds really good, if you know what I mean

We could live on an island far the way  
We could swim with the fishes in the sea  
Take a ride on a spaceship to the stars  
When we there happy fishes we would be

I'm the kind of girl that you wanna carry  
Through the streets of Rome or perhaps Madrid  
Then we'll have a train on the to Venice  
Sleep on a boat under a bridge

Maybe this is all just a beggers banquet  
Maybe this is all just a fools delay  
And if I will recall this a imagination  
We can pretend, at least for tonight

Chorus:

That we live on an island far the way  
That we swim with the fishes in the sea  
That we ride on a spaceship to the stars  
And we there happy fishes we would be  
We could live on an island far the way  
We could swim with the fishes in the sea  
Take a ride on a spaceship to the stars  
When we there happy fishes we would be

Chorus

I'm the kind of girl that you wanna marry  
Live on on a farm with a bunch of kids
