She sees demons in her sleep  
They claim her memories  
And she fights them til they're quiet  
She won't look you in the eyes  
It's hard for her to hide  
And she's frighten more than I am  
Count sheep  
Just breathe

Chorus

Hush hush child child don't you cry  
Cuz it's alright  
I am here to lead you to the dawn  
Hush hush child child walk with me in the sunlight  
I am here beside you through it all  
When you fall, I fall  
When you fall, we fall

She does things I can't believe  
Sees things that I can't see  
And if I fight her when she's frightened  
And sometimes she runs away  
She won't come out and play  
She's beside me  
When she's hiding  
Count sheep  
Just Breathe

Chorus

Somewhere inside of me  
There's a girl who doesn't speak  
She knows who she wants to be  
She knows me

Chorus
