I gave you reason to  
Walk out of my life  
It ain't no question  
I was the one to pick up the flights  
If you give me one chance  
To make it up to you  
I'll give you more and more...  
Than you ever thought possible

I guess I never show that you're  
The most precious in my life  
I gotta prove it to you baby  
I'll come after you this time

Chorus

Wait, I'm coming for you on  
The next flight  
Tonight  
All I've been thinking about is us  
And how to win your trust back again  
Let's start to begin

I found your letter in the hallway today  
Said you were leaving  
There was no use for you to stay  
It wasn't my intention to ever  
Do you wrong  
Now I need you back into my life  
To be able to carry on

I didn't know what I had  
Til you were already gone  
Now let me take you back  
To where we first came from

Chorus

Doesn't matter where you've run from  
Doesn't matter where you are  
I'll be there right behind you  
It can never be too far

All the things I long for  
Are all of the things you are  
Let's make another start

Chorus

Our past is part of who we are  
But the future's not far  
So let's start to begin  
This can't be the end
