I believe in life and I believe  
My destination is a choice I make  
And I've learned to keep  
My cool before I let imagination  
Put my mind astray  
Maybe I have become a little wiser  
Since I'm in this just like you

Chorus

On and on and on because  
We make each other strong  
Life's unshakable  
Times can change and things  
Can break but you and I know  
Where our hearts belong  
Cause we're unbreakable

I don't believe in giving up  
Even if I sometimes always  
Lost all faith in me  
You better keep going  
And before I met you I was sure  
I'd never find someone to  
Love like I love you, no

Maybe I have become a little wiser  
Since I'm in this just like you

Chorus

You mean the world to me  
You've opened my heart and set me free  
Now everything is in the way  
You always bring me up again now

Chorus
