These sleepless nights won't mean a thing
Come tomorrow I'll be dreamin the day away
Inside my head again
The moonlight and the cool night air
Reminding me of why I'm here
I lay awake in my old bed and stare and I can't bring
myself tonight
To shut my eyes, turn off the lights
I hope that some way if I stay up late
The stars will shine so bright
And oh, I try to fall asleep
I hear the floor boards creek beneath my bed
I pull the sheets over my head
And I, I can't be scared tonight
I need to close my eyes and just pretend
That all the monsters in my room are my dear friends
Oh I'll never know why I'm still here
Why I can't fall asleep to save my life
It's getting late but I'm not tired
I tried so hard to make my wish
At 11 past 11 and
I'll never tell the whole world what my biggest secret is
And I want to know what I'll be dreamin of when I get
my eyes to close
Someday soon, my secret wish will come true
These sleepless nights won't mean a thing
Come tomorrow we'll be singin
We need to close our eyes and make believe
I tried so hard to make my wish
At 11 past 11 and
I'll never tell the whole world what my biggest secret is
And I want to know what I'll be dreamin of when I get
my eyes to close
Someday soon, my secret wish will come true
These sleepless nights won't mean a thing
Come tomorrow we'll be singin
We need to close our eyes and make believe
