Shocking us with the memories left behind.
Pulling us close together one more time.
Fighting against the words, against the tide.
Shifting and holding back the border line.

You know life is full of color.
But some are darker than others.
It wasn't worth to recover.
Felt you finally reached the edge.

Seized the storm
Giving in your bones.
Found your peace of mind,
Just your trace behind.
Hope you reach the light.
Keep on moving bet the journey is long.
Feeling free tonight?
Let this moment ever last.

You know life is full of color.
But some are darker than others.
It wasn't worth to recover.
Felt you finally reached the edge.

Seized the storm
Giving in your bones.
Found your peace of mind,
Just your trace behind.
Hope you reach the light.
Keep on moving bet the journey is long.
Feeling free tonight?
Let this moment ever last.
