Lead-chorus

Free

free from my past

Free from the pain

Free from the guilt that would cause me to be ashamed

Once

Once i was blind

but now i see

clearly the debt that i owe Jesus paid for me

No more chains are binding me

i'm totally free

Verse 1

even my human desires

desire to crucify my soul

could not await the

the fact that you made me whole

time after time i remind myself

that your mercies each day are new

help me oh Lord to establish

and know that at calvary i was redeemed

chorus

Verse 2

even though i was a sinner

you commended your grace and your love toward me

saved me from death and destruction

gave me life eternally

not after my sins have you dealt with me lord

i'm so grateful for all you do

iniquity doesn't take my reward

you still love me and tell i am your own

chorus

musical interlude
