"Don't Wanna Wait Forever"

Visit "[Don't Wanna Wait Forever](#)" on MotoLyrics.com

Starting out with nothing
As I climb the tracks
Miles into the horizon
And never looking back
I like tasting life
And even paying dues
I want to see the sunset
And make the evening news

Don't want to wait forever
Don't want to waste my time
Don't want to wait for something to come
And have it pass me by

Don't want to step in front
Don't want to cause a scene
I need to stop getting hurt
I need to get back to work
I'm tired of kicking up dirt
I'm tired of making it worse
I wanna see the sunset
I wanna lift this curse
