Hearing tunes in other rooms
They stay, they stay like morning rays
Summer in sound tumbling down
The sun around my face
Leaves are green like tambourines
A walk, a walk in morning dew
Soul in the breeze
Places like theses
The times I shared with you

Can we slow it down, slow it down
I'm afraid to go home
I'm afraid to go home
Can we slow it down, slow it down
Scared of being alone
Scared to answer the phone
I'm afraid to go home

Ocean view is drowned in blue
The waves, the waves against the shore
Say I don't care but knowing he's there
I'll pour a couple more

Can we slow it down, slow it down
I'm afraid to go home
I'm afraid to go home
Can we slow it down, slow it down
I'm afraid to go home
I'm afraid to go home
