You know the hurt's
So deep
That I can't sleep or eat,
And what I'm hoping for
Is to feel your kisses sweet.
If we could just talk
Things might be a little more clear.
I really need the chance
To explain the way I feel.

I can't sleep (can't sleep),
Thinking of you constantly,
I can't sleep (can't sleep),
Wishing you were here with me.
I can't sleep (can't sleep
Where are you please(?))

When I get home from work,
Sit down and watch tv,
The night falls
Just like a bad dream.

I can't sleep (can't sleep),
Thinking of you constantly,
I can't sleep (can't sleep),
Wishing you were here with me.
I can't sleep (can't sleep
Where are you please(?))

I can't sleep (can't sleep),
Thinking of you constantly,
I can't sleep (can't sleep),
Wishing you were here with me.
I can't sleep (can't sleep
Where are you please(?))
