Rain on the window pane  
Thinking of you again  
Had to phone  
To check you're still on your own

Just when I'd thought you'd gone  
I'm catching a train back home  
Five to three  
Playing a tape you made me

Chorus:  
What you're looking for at the record fair?  
What you're looking for?  
Could you find me there?

Let me apologize  
You know that I miss your eyes  
Make me laugh  
You know you make me laugh

Chorus

? ? ? with me  
Do you fancy some ginger tea?  
Hearing your favourite band  
You're holding both of my hands

Chorus
