[sample:] gentlemen, if you please. I think we're just about ready to record.

(aah-aah-aah-aah.) /

Now I've learned to love the bomb, / now I've learned to love the bomb. /

Now I've learned to love the bomb, / now I've learned to love the bomb. /

Now I've learned to love the bomb, / now I've learned to love the bomb. /

Now I've learned to love the bomb, / now I've learned to love the bomb. /

What the hell do you take me for? /

If you're going to make bombs you're looking for war. /

Now I've learned to love the bomb, / now I've learned to love the bomb. /

Now I've learned to love the bomb, / now I've learned to love the bomb. /

Now I've learned to love the bomb, / now I've learned to love the bomb. /

Now I've learned to love the bomb, / now I've learned to love the bomb. /

(aah-aah-aah-aah, / aah-aah-aah-aah, / aah-aah-aah-ahh...)
