I killed myself today  
I wish I could explain  
I tried to find another way to tell you how I feel it  
I tried to find another way to make you proud of me

I'm numb from kneeling  
This cut's too deep for healing  
Revealing, there's something amiss  
Something you missed

Transfer the shame  
You will never be the same  
I will not accept the blame  
'Cause I am what you made me

It's over now  
What I've seen makes me  
(You gave me life but this life is mine)  
Pray for things I know  
(You gave me life but this life is mine)

To change me, make me a whole  
(You gave me life but this life is mine)  
My life's so full of shit  
(You gave me life but this life is mine)  
In death is where I fit

I killed myself today  
I wish I could remain  
I tried to find another way to let myself go free  
There seems to be no other way to make things right in  
me

I can't awaken, my life has been forsaken  
I've taken the easy way out, the only way out  
Empty my wrist, we could never co-exist  
I will not let this persist 'cause I am what you made me

It's over now  
What I've seen makes me  
(You gave me life but this life is mine)  
Pray for things I know

(You gave me life but this life is mine)

To change me, make me a whole  
(You gave me life but this life is mine)  
My life's so full of shit  
(You gave me life but this life is mine)  
Death is where I fit

You gotta see, you gotta try  
Who's gonna change the world when I die  
I said, you gotta see, you gotta try  
Who's gonna change the world when I die

I said, you gotta see, you gotta try  
Who's gonna change the world when I die  
I said, you gotta see, you gotta try  
Who's gonna change the world when I go

[Incomprehensible]  
[Incomprehensible]  
[Incomprehensible] make me whole  
Well now you lost your son and lost control  
Tell me now, how you feel  
You can fucking live your life  
But you can't live mine

Pray for things I know  
To change me, make me a whole  
My life's so full of shit  
Death is where I fit

You can fucking live your life but not mine  
You can fucking live your life but not mine  
You can fucking live your life but not mine  
You can fucking live your life but not mine
