

Saliva "No Hard Feelings"

Visit "[No Hard Feelings](#)" on MotoLyrics.com

Wh-wh-what?
What?
What?

All the pain that haunts me still
And all the shame surrounding you
And all the past that I can't kill forever wrapped around
me
And all the sadness in our lives and all the things that I
can't hide
And all the fear that's deep inside from all the years of
hiding

There's a ghost that's inside of my mind
(Of my mind)
There's a pain that is haunting me still
(Haunting me still)
And I could never go back and rewind
(And rewind)
And I could never have peace or be still

Somebody take this away
Somebody take this away
Somebody take this away
Somebody take this

Wh-wh-what?
What?
What?

They took you far away from me
So I could never find you
They made me blind but I can see the loaded gun
behind you
The end of everything we knew inside of me and inside
you
I miss the way we used to be
When I was what would bring you through

There's a ghost that's inside of my mind
(Of my mind)
There's a pain that is haunting me still

(Haunting me still)
And I could never go back and rewind
(And rewind)
And I could never have peace or be still

Somebody take this away
Somebody take this away
Somebody take this away
Somebody take this

No one feel it
No one feel it
No one feel it
No one feel it
No one feel it
No one feel it

Somebody take this away
Somebody take this away
Somebody take this away
Somebody take this

Wh-wh-what?
What?
What?
