oooohhh noo

nooo

all the pain that holds me still
and all the shame surrounding you
is now the past that i can't kill
ever wrapped around me

and all the sadness was your life
our now the things that i can't hide
its just to feel thats deep inside
from all the years of hiding

theres a ghost thats inside of my mind
and a thing that is haunting me, still
so i can never go back and rewind, never
i can never be sittin' still, be still

somebody, somebody
somebody take this way

somebody, somebody
somebody,

but i have lived for you
and every single little thing you do
but i have lived for you
and i will kill myself for loving you

it took you far away from me
till i could never find you
it made me blind, but i can see
the loaded gun behind you
the end of all that this boy knew
inside of me wasn't in side of you
i miss the way we used to be
when i was the one who would bring you through

somebody take this away
somebody take this away
somebody take this away

somebody take...

but i have lived for you
and every single little thing you do
but i have lived for you
and i will kill myself for loving you

(guitar solo)

somebody, somebody
somebody take this away

somebody, somebody
somebody take this away

somebody, somebody
somebody take this away

but i have lived for you
and every single little thing you do
but i have lived for you
and i will kill myself for you loving

cause i have lived for you
and every single little thing you do
but i can rise above your lies that you
gladly made your life

and i will kill myself for loving you
