

Saliva "Rest In Pieces"

Visit "[Rest In Pieces](#)" on MotoLyrics.com

Look at me
My depth perception
Must be off again

Cause this hurts deeper
Than I thought it did
It has not healed with time
It just shot down my spine

You look so beautiful tonight
Reminds me how you laid us down
And gently smiled
Before you destroyed my life

Would you find it in your heart
To make this go away
And let me rest in pieces?
(Let me rest in pieces)

Would you find it in your heart
To make this go away
And let me rest in pieces?
(Let me rest in pieces)

Pieces

Look at me
My depth perception
Must be off again

You got much closer
Than I thought you did
I'm in your reach
You held me in your hand

Would you find it in your heart
To make this go away
And let me rest in pieces?
(Let me rest in pieces)
Would you find it in your heart
To make this go away
And let me rest in pieces?

(Let me rest in pieces)

Would you find it in your heart
To make this go away
And let me rest in pieces?

Would you find it in your heart
To make this go away
And let me rest in pieces?

Would you find it in your heart
To make this go away
And let me rest in pieces?
(Let me rest in pieces)

Would you find it in your heart?
(Would you find it in your heart?)
(Would you let me rest in pieces?)
(Would you find it in your heart?)
(Would you let me rest in pieces?)

Would you find it in your heart?
(Would you find it in your heart?)
(Would you let me rest in pieces?)
(Would you find it in your heart?)
(Would you let me rest in pieces?)
