You've been hiding in the dark of your heart for way too long
You've been waiting for a light, for a sign to come along
You've been running after stars but don't forget who you are
Maybe you're the star we should all be chasing,
tonight's the night

Standing in the spotlight, this is your time, don't let 'em down
Standing in the spotlight, don't get blinded from the roar of the crowd
One night only, you better get going, this is your time
Get up in the spotlight, yeah, yeah, yeah, spotlight,
yeah

In the running and gunning I hope you get your fill
You can stumble in a second, don't forget that midnight kills
It's a black hole lullaby but it's a hell of a ride
Maybe everything you ever had in you comes out tonight

Standing in the spotlight, this is your time, don't let 'em down
Standing in the spotlight, don't get blinded from the roar of the crowd
One night only, you better get going, this is your time
Get up in the spotlight, tonight's the night, spotlight,
yeah

You've been hiding in the dark of your heart for way too long

Get up in the spotlight, this is your time, don't let 'em down
Get up in the spotlight, don't get blinded from the roar of the crowd
One night only, you better get going, this is your time
Get up in the spotlight, get up in the spotlight, yeah

Spotlight, don't get blinded from the roar of the, roar
of the crowd
Spotlight, yeah, from the roar of the crowd
Spotlight, don't let 'em, don't let 'em down
Stand up in the spotlight, yeah
