All this time I believed your lie  
Raised your flag deep within your sight  
I raise my flag to all you hide and drive your spike  
within me  
Within you  
Within me  
What makes you think I wanna know  
It makes your life worth living  
What makes you think I wanna know  
It makes your life worth living  
All this time I believed your lie  
And raised your god deep within your sight  
I raise my glass to all you guys who drive your god  
from nothing  
From nothing means nothing  
What makes you think I wanna know  
It makes your life worth living  
What makes you think I wanna know  
It makes your life worth living  
Promises you made me  
All this is apology  
So sick of lies  
Don't wanna know  
Go and tell somebody else I say.
