(feat. MoUnique)

I'm ready and willing to take you on  
Just tell me when and where C'mon, C'mon  
You can hide behind your entourage or cell phone  
But you can bet your pretty ass I'll be there alone  
I ain't playing here with you bitch anymore  
There's been enough talking let's start this war  
Write a letter to your mama you ain't coming home  
Cause you're gonna gonna get what you ask for  
You make me  
You make me this way  
So fu fu fuck you  
Hey hey hey hey hey  
And I'm glad you're going  
I hope that you stay  
In hell  
No more hellos  
Goodbye  
It's a beautiful thing for me to know  
That you hear this on your system driving in your car  
And Oh Oh you're off the road  
Now you're six feet under  
Where you belong  
I hate you so much right now  
And at the end of the day  
When it's all said and done  
You can kiss this ass till the morning comes  
Fuck you homie you picked the right one  
I don't take I won't take no shit from no one  
I can't make I won't wait on your outcome  
Cause I do me baby better do you  
You better take control because I ain't fool  
I'm from a place where were known to have them tools  
Run with G's goblins and goons  
And Mo-U wasn't born with a silver spoon  
But mom raised me to do what I gotta do
