## "Don't Go Tango"

We're only sitting here  
Because we know we're not along  
Can't stand what's interfered  
You want to know  
You die to know

Don't go tango we got carried away  
Don't go tango we got carried away  
Don't go tango we got carried away  
Don't go tango we got carried away

Stand close to see me fall  
We have shown you're not along  
We've been from tear to tear  
You will see you're not along

Don't go tango we got carried away  
Don't go tango we got carried away  
Don't go tango we got carried away  
Don't go tango we got carried away

[BRIDGE]

Don't go tango we got carried away  
Don't go tango we got carried away  
Don't go tango we got carried away  
Don't go tango we got carried away

Away, away, away, away, away  
Away, away, away, away, away

Don't go tango we got carried away
