Verse:

I'll confined in something
Then find a flaw
A flaw in the one thing
That carries us all
This isn't indecisive
Just an obvious shame
If you even know the purpose
Then expect the blame

How will you know if you didn't try
How will you know if you didn't try
How will you know if you didn't try
How will.....

Chorus:

Sorry faces
Four minds make this
Complicating the otherside of the world
we've got to make this hurt
Seperate places
Time awaits him
Unreplaceable part of a curse
Are we to take your turn
