Remember when I used to be in my high school it's
misery
Remember then I can't pretend or make a band or drive
a van
Or make a sandwich with my girl friend come to me
remember me
Don't worry no happy don't come to me no sorry don't
worry
I used to be like this lonely don't come to me

Remember when I used to be mourning with my
buddies
Remember then I can't pretend or make a band or drive
a van
Or make a sandwich with my girl friend keep it real
remember me
Keep I real not ignore me keep it real come to me keep
it real walks with me
Don't be worry I am not happy don't come to me
I am no sorry I used to be

Just like a rain drops and making you cold
Just like a rain drops crazy like hip hop
Just like a rain drops and making you cold

Keep it real ignore me
Keep it real not remember me keep it real not come to
me keep it real not walks with me
Don't be worry I am really happy don't cry with me
I am so sorry I used to be now I can be somebody

Just like a rain drops and making you cold
Just like a rain drops crazy like hip hop
Just like a rain drops and making you cold
